ABOUT 100 STORY BUILDING

We work with children and young people to build the literacy skills, confidence and sense of belonging that are fundamental to future success, with an enduring commitment to supporting under-resourced communities.

We create opportunities for children and young people to expand their imaginations, amplify their voices and become the hero of their own stories.

“

When students participate in the design of the space themselves, their voice and values are embedded into the physical space, reinforcing student ownership, involvement, and participation in the learning process.

The Story Hub design principles

01 Site-specific

Embedded in place, using features already in the environment

02 Practical

Functions as an everyday teaching and learning space, accessible to all partners

03 Plausible

Facilitates suspension of disbelief - a story existing here can't be proven/disproven

04 Potential

Narrative gaps allow new stories and stories to change, develop and grow
